Expectations for student conduct during live lessons

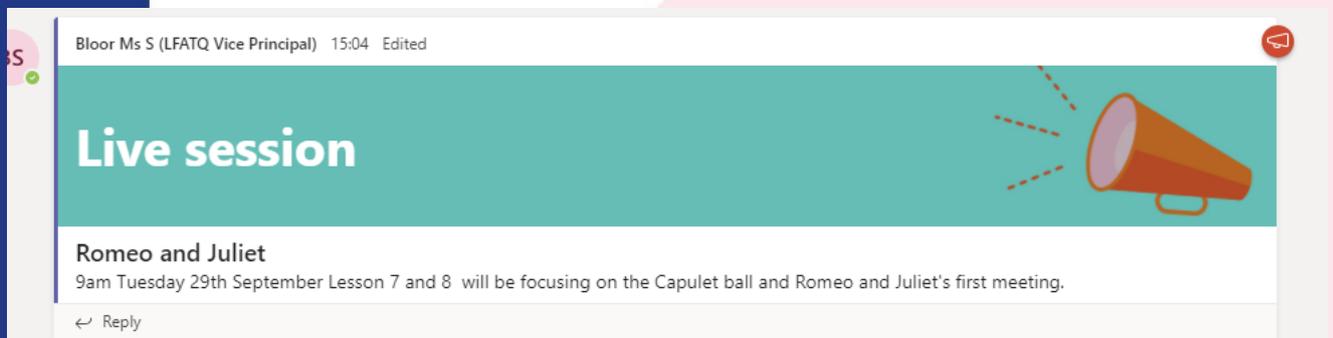

At Landau Forte QEMS/Sixth Form we take the safeguarding of our students seriously, and therefore would remind you of the following expectations for the Live Session:

- All Live Sessions will be recorded for the safety of our staff and students. This will also enable any student who is not able to participate at the specified time to learn in a way that fits their own schedule.
- Students should use their webcam responsibly throughout the session. We would remind you that by participating in the lesson with the webcam enabled, you are giving your consent for us to record that webcam for the safety of all of our staff and students.
- Students should mute their microphones until they need to participate verbally. If this is not possible, they should responsibly use the Chat function.
- Students will be muted and/or removed from the session if the platform is used irresponsibly.

Please contact me as soon as possible if this time is inconvenient for you and I will explain how you can catch up on this lesson after it has been completed.

How to attend 'live lessons'

Your lessons will follow your usual timetable, but your teacher may post an announcement to remind you.

Joining the lesson

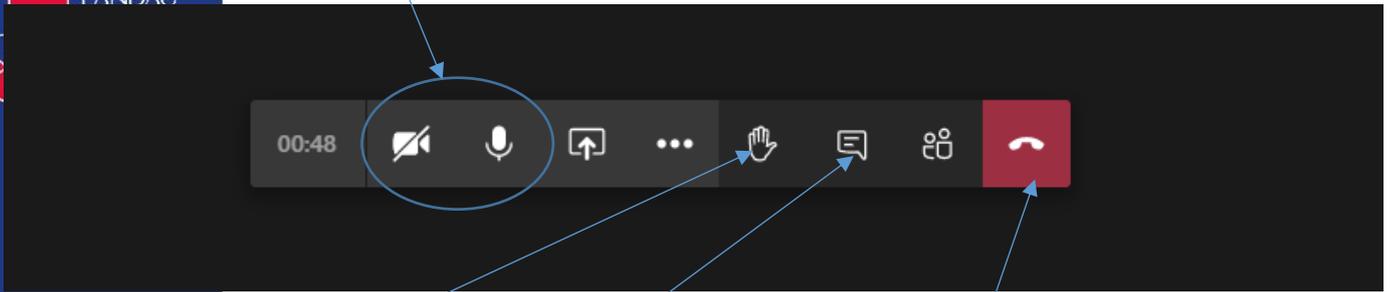

Access Microsoft Teams and the class team in the same way as always.

In the top right hand corner you will see 'Meet' to join your live lesson.

Click on 'Meet' and wait for your teacher to admit you to the session. You will only be admitted if you login on your school account.

Once you are in the meeting you must mute your microphone and leave camera off unless your teacher asks otherwise.

If you want to ask questions during the session you select the 'hands up' button and your teacher will see it.

'Chat' feature

Use the 'chat' button to ask your teacher questions. Remember the chat records who asks questions so you should think carefully about what you type.

Leaving the meeting

Select the red box with the telephone symbol to leave the meeting.
