Vision statement:	At Landau Forte our curriculum exists to ensure all students regardless of background and ability have the opportunity to unlock their potential. We are committed t students being challenged from their previous key stage learning experiences. Our broad and balanced curriculum is ambitious, coherently planned and sequenced, and will provide the platform for preparing students with the foundations for examination success.							
	Our Curriculum Intent has been informed by a wide variety of researchers and is ste our curriculum to empower all learners creating a pathway to success in university,	•	Counsell summarises the aspiration					
	'A curriculum exists to change the pupil, to give the pupil new power. One acid test for a curriculum is whether it enables even lower attaining or disadvantaged pu to clamber into the discourse and practices of educated people, so that they gain powers of the powerful.'							
	As well as excellent academic success we aim to ensure our students leave us as po and Curiosity are currently being embedded throughout our curriculum offer to ensu	· -	-					
Curriculum intent:	The Art and Photography curriculum at Landau Forte develops students' imagination, enquiry, creativity and self-reflection. We provide the students with creative experiences that cover a broad variety of topics, ensuring that the students build upon prior knowledge. Students study a range of artists, genres and cultures to broaden their understanding of art and the wider world. By ensuring students are taught technical skills and learn from the work of others we develop active learners, who are inquisitive and a firm grounding of technical skill and understand how to research, analyse and synthesise concepts and approaches to find personal outcomes.							
	The topics are designed to provide cross-curricular links to other subjects across the swider world of work within this. We have devised our curriculum whilst considering t	•	nge of practitioners and consider th					
	In Art, students explore and learn how to apply a range of skills and techniques using a variety of media, whilst at the same time, teaching them to take pride in their work and complete tasks to the very best of their ability. Our students are critical thinkers and problem solvers, developing projects from conception to realisation. We promote individuality, creativity and independence, which prepares them for GCSE and A level and beyond.							
	The course is designed in a cyclical nature from KS3 to KS5 allowing for key skills to be developed and refined over time. The four threshold concepts that underpin the learning are derived from the KS4 Assessment objectives, but also form the basis for all creative process outside of education. The 3 C's are at the heart of creative practice.							
	<b>Compassion</b> Learning about others and world/ societal issues explored in Art, supporting one another in class, teamwork etc <b>Curiosity</b> Experimenting and exploring with media, techniques and processes.

Sequencing:	We have chosen to sequer	nce the year 12 curriculum l	ike this because					
	We begin with technical skills, to ensure all students have the necessary control, visual understanding and ability to record imagery to a high level. These build directly from the GCSE criteria, therefore most, but not all, have a good grasp of the requirements and existing skills. The work on taking these skills to a higher level in terms of complexity, and appropriateness for different intentions. There is an increasing focus on not only analysing artists but understanding more conceptual and procedural ideas, ensuring students understand they need to develop a personal voice, develop independence, showing their inspiration, not simply be effective copy-ers. Standing on the shoulders of giants.
