Careers Charter

- As a student at Landau Forte Academy Trust QEMS and Tamworth Sixth Form, we want you to receive the best careers education and advice to inspire you to aim high and feel confident when making careers decisions.

- We will support you to learn about jobs, employers, further education, higher education, applications, employability skills and labour market information, entry requirements and the importance of your curriculum.

- You will learn about careers through a dedicated tutor time programme, assemblies, trips, employer encounters, work experience, events and enrichment activities.

- We will encourage you to challenge stereotypes and provide role models you can relate to.

- You will be shown how what you are learning links to careers – to help with this, your teacher will display the QEMS and TSF Career learning logo.

- You can request an individual careers guidance meeting with a professionally trained (Level 6) careers adviser, which will help you explore your career interests and support your understanding of labour market information so that you can make informed decisions.
